

Chemical Laboratory Technician (f/m)

Your Employer: AVA Biochem BSL (www.ava-biochem.com) is a pioneer in producing the premium platform chemical 5-Hydroxymethylfurfural (5-HMF), as well as other furanic compounds, from renewable biomass. In the future, AVA will deliver and cooperate with various customers around the globe to support the development of novel, bio-based products and solutions in a wide range of applications. Based on continued growth of the company, we are looking for a talented and enthusiastic chemical technician who will support the R&D and production teams in our laboratory in Muttenz, Baselland.

Your Responsibilities:

- Processing HPLC analyses according to ISO and GMP
- Recording data and keeping the internal database updated
- Performing other laboratory tasks, such as development and optimization of methods, validations, maintenance of laboratory and equipment, etc.
- Supporting R&D activities: operate with lab equipment such as centrifuge, agitators, Rotavap, perform synthesis at lab scale, extractions etc.

Your Professional Background:

- Diploma in Chemical Laboratory Technology/ Laborant/in EFZ Chemie
- At least 4 years of professional experience with HPLC
- Solid knowledge of laboratory processes and quality control environment
- Excellent documentation practices

Your Personality and Skills:

- Enthusiast about being part in the development of renewable chemistry
- Self-motivated team player matching with multiple nationalities
- Ability to work and deliver systematically within deadlines
- Flexibility to perform even under pressure, unexpected change requests, tight deadlines if needed
- Analytical mind-set and passionate about stimulating ongoing improvement and continuous learning process
- At least a working knowledge of English, German and any additional language welcome.

Start date: As soon as possible

Location: Muttenz, BL, Switzerland
